Summary

Software engineer with production experience building LLM-powered systems end-to-end — multi-agent RAG pipelines, prompt-injection defenses, and full-stack (React/FastAPI/PostgreSQL) applications. Shipped backend automation serving 200+ users at Philips and an 8-agent RAG system with grounded, cited retrieval. Strong DSA foundation (LeetCode Knight, top 3%) with hands-on evaluation and testing discipline.

EXPERIENCE

Philips- HealthCare Innovation Center

Mar 2026 - Ongoing

Intern - Software Developer Level 1

Pune, India

- Built a scalable **Python/FastAPI** backend for an Asset Booking and Tracking System managing **800+** lab equipment items across **200+ users**, replacing manual spreadsheet-based tracking.
- Developed a cross-functional team (CFT) approval automation system with reminder and escalation workflows, reducing average approval turnaround from **1–2 weeks** to **3–4 days**— a **60%+** reduction.
- Completed Philips learning programs in Software Development, GitHub Actions / CI/CD, and AI Ninja Yellow Belt, strengthening practical knowledge of software engineering.

PROJECTS

Philips Product Knowledge AI Agents [🔗](#) | Python, FastAPI, LangGraph, FAISS, Ollama/OpenAI | [Code](#) Philips Internship Project

- Architected an **8-agent RAG system with LangGraph**, orchestrating document ingestion, vector retrieval, confidence evaluation and grounded response generation through a multi-stage agent workflow.
- Built a **FastAPI /ask API** that returned grounded answers with document, page, chunk-ID and similarity-score citations retrieved from a **FAISS vector store**.
- Implemented a dedicated **Security Agent** to block **prompt injection** and jailbreak attempts before retrieval layer.
- Validated reliability with a **pytest** test suite covering chunking, embedding, graph orchestration, and **Security Agent**.

PlanMyTrips: AI-Powered Travel Itinerary Generator [🔗](#) | Python, FastAPI, React, PostgreSQL, Groq | [Code](#) Sept 2025

- Built the **full-stack** application including a **React** frontend consuming FastAPI endpoints, giving users an end-to-end interface for itinerary generation and editing.
- Developed high-performance REST APIs using FastAPI, **Load-tested REST APIs at 1,000+ requests/day equivalent** with **200ms average latency** through optimized data retrieval and async processing.
- Designed and implemented a RAG-based backend pipeline integrating LLaMA 3 with structured datasets (300+ records).

Resume Evaluation Engine [🔗](#) | Python, Pydantic, FastAPI Modules, Github REST API | [Code](#) Jul 2025 – Aug 2025

- Built an **Automated** resume-to-score pipeline converting PDFs into structured JSON using **LLM-based parsing** Achieved a **99%** schema-conformance rate on evaluated resume parsing outputs using **Pydantic** validation.
- Integrated a GitHub enrichment** to fetch 1000+ repositories, classify projects, and compute fairness-aware evaluation.
- Designed **modular provider-agnostic architecture** with **configuration management** and **local caching**, ensuring reproducible scoring runs and reducing re-evaluation latency by 70%.

SKILLS

Programming: C++, Python, JavaScript

Frontend & Backend: React, FastAPI, Node.js, REST APIs, WebSockets

AI / LLM Engineering: Retrieval-Augmented Generation (RAG), AI Agents, LangGraph, LangChain, FAISS, Vector Search, LLM APIs

Databases: PostgreSQL, MySQL, MongoDB, Schema Design

DevOps & Testing: Docker, Git, GitHub, CI/CD, Postman, pytest, AWS (EC2, S3 — Basic)

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems

ACHIEVEMENTS

LeetCode | Knight(Max Rating: 1860) | 450+ problems | [LeetCode](#) [🔗](#)

- Achieved highest ranking of **1162 out of 34,222** participants (**top 3%**) in LeetCode Weekly Contest 485.

Hack4Bihar Finalist | Top 7 out of 1000+ participants | (Team Leader)

- Led a team to a **Top 7 finish** in the **Hack4Bihar 2025 National Hackathon**, developing an **AI-Powered Waste Management System** leveraging AI-driven social data analysis.

EDUCATION

Indian Institute of Information Technology Bhagalpur

August 2023 – July 2027

Bachelor of Technology in Mechatronics and Automation Engineering

CGPA: 8.36(absolute)
